Chess  
Basketball  
Piano

## Languages

English	C1
Italian	B1
German	B2

## 9 grade test scores

English	10
Math	10
Albanian	10

I am Aron Qerimi. I am 16 years old and live in Albania. I was born on 27th of October. I am motivated and have taught myself a lot of things like coding without needing a teacher. I feel especially motivated during different competitions. I try to be honest and tell people what I think without hurting their feelings. I see myself as very creative. I like finding patterns and engaging in different creative activities. Chess requires a lot of creativity even though it does not look like it; so does coding. I think I am reliable because I am always there to help a family member or a friend, without expecting anything in return. I am also outgoing. I try to make friends when I am in a new environment and I have made many friends from all over the world playing in chess tournaments.

## Experience and Education

### Intern position

July 1st 2024 - September 1st 2024

#### [Shero Commerce](#)

I was selected out of over 200 applicants of an internship at Shero Commerce. The internship was focused on:

- How a commerce web development company works
- The order and hierarchy of the employees.
- Technologies used in a days work as well as a deep dive into them.
- How to leverage the technologies learned to solve real world problems.
- Practice with real examples that have occurred in the past.

### Volunteer

In Summer

#### [Mission Without Borders](#)

I was a volunteer at a kids summer camp organized by Mission Without Borders.

Children from ages 7 to 14 were that come from disadvantaged backgrounds were selected to attend a seven day camp at a resort where they made new friends, played games, danced, sang and so much more. We would play with the children, help them and allow them to have the time of their lives.

### Training for the needed digital skills of the future

2024

#### [SKILLS4U](#)

### Grades 5 to 10

2019-Present time

#### [Shkolla Ibrahim Kodra](#)
